

VERITAS 2™

conventional 4-wire fire detection kits

competitive

The Veritas range has been specially developed as a cost effective 'kit-in-a-box', including panel (2 or 4 zone), batteries, 2 x optical detectors, 1 x heat detector, 2 x sounders and 2 x call points

professional

The stylish panel has an easy-to-use interface and is built to BS EN54-2 standard (including the integrated power supply), offering professional safety at an affordable cost

flexible

The kits are expandable with 'extender packs', providing ultimate flexibility for the most demanding installations
