

ISO 9001: 2015

Scope and Policy of QMS

Channel Safety Systems Ltd operates in the field of safety and security. It has four main areas of application:

- 1) Fire Alarm Systems.
- 2) Emergency lighting and other lighting Products.
- 3) Nurse Call Systems.
- 4) Security Products

The range of Channel business activities encompass Design, Manufacture, Sales, Commissioning, and Support of these products. Each of the activities will be carried out and controlled in accordance with the quality policy of the company and the associated processes defined as the primary activities necessary to achieve the overall company objectives. In addition all work will adhere to the statutory related Health and Safety legislation in force at the time.

The Company has determined the Internal & External issues it has considered all interested parties and these are in line with the context of the organisation & strategic directions.

Where the activities involve the subcontracting of work to third parties then a preferred requirement is that these companies are ISO 9001 approved, however where this is not so they shall be monitored to ensure they operate in a manner that is equivalent to or better than this requirement.
